

**To whom it may concern**

February 27, 2020

Jacob Holm has received numerous inquiries regarding the impact of the Corona Virus on business continuity.

While the spread of Corona Virus is clearly expected to impact the production and distribution of raw materials and goods from China, Jacob Holm currently has multiple raw material sources and a robust supply chain in place to weather this situation.

Jacob Holm is in close contact with its Chinese suppliers, also with the suppliers of its Jacob Holm Industries (France) SAS plant in Soultz. We are currently not experiencing, or being advised of, any supply disruptions.

In regard to risk of contamination, we defer to the following organizations: Department of Health & Human Services: <https://www.cdc.gov/coronavirus/2019-ncov/about/transmission.html>

Jacob Holm continues to monitor this situation closely. We are committed to working with you to ensure the continuity of supply.

Kind regards

**Erik Lomholdt**, Vice President Sourcing
